

REMARKS

Upon entry of the above amendment, the specification and the claims will have been amended to more accurately define the present invention and to the disclosure of the Korean Application. In particular, Applicants respectfully submit that the term "electron expansion valve" is a mistranslation and that "electronic expansion valve" is correct. Accordingly, Applicants have amended "electron expansion valve" to "electronic expansion valve" to reflect the proper translation. Since the amendments submitted herein are not believed to be new matter, but merely a correction of a mistranslation, which would be apparent to one of ordinary skill, Applicants respectfully request entry of amendments.

Further, Applicants submit that the amendments to the claims submitted herein have not been specifically noted to overcome a rejection based upon the prior art and should be considered to have been made for a purpose unrelated to patentability. Accordingly, no estoppel should be deemed to attach thereto.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Sae-Dong JANG et al.
